## REPORT OF THE SCHOOL NURSE

To the Superintendent of Schools:

The school health services in Barrington, Epsom, Northwood, Nottingham and Strafford included a routine health inspection of each child by the nurse. The parents were informed whenever defects were found, and most of these children were seen or treated by their family physician. The success of the health program depends largely upon such cooperation as the parents of these communities have shown.

In addition to the above, various clinics were arranged for the benefit of the children. Measles vaccine was given to 74 children in Barrington and to 49 in Strafford. Epsom joined with Chichester in having a measles clinic and a combined total of 22 children received this protection.

A series of three immunization clinics was held in both Northwood and Nottingham. In Northwood, 42 measles vaccinations, 18 smallpox vaccinations, 105 triple toxoid boosters and 24 oral polio immunizations were given; while in Nottingham 142 children received triple toxoid, 22 were vaccinated for smallpox, 55 for measles, and 134 for polio (both series and boosters).

Dental clinics were held in three towns — Barrington, Epsom and Northwood. The former participated in the Matching Funds Program only. Dental repair work was provided for 11 children. Epsom and Northwood also had this program and a total of 35 children was treated. These two towns also have a continuing dental program for cleaning the teeth and applying topical fluoride solution which is very beneficial in reducing dental decay. 199 children took advantage of this program in Epsom and 144 in Northwood.

Regarding clinics, it should be remembered that all immunization clinics are co-sponsored by the N.H. Bureau

of Public Health and a local organization. The dental clinics are also co-sponsored by the N.H. Bureau of Dental Public Health and one or more local sponsors. The local groups deserve a special word of commendation, since a great deal of time and effort is essential to the smooth operation of any clinic.

Through the N.H. Tuberculosis Association, the Heaf test for tuberculosis was administered to 239 students and faculty members at Epsom Central School, and 6 people received X-ray examinations. It is planned in the future to administer the Heaf test annually to children in first grade only. This will be done in all five towns in the fall of 1968.

During the school year of 1966-67, the N.H. Sight Conservation Program provided vision examinations and glasses for 3 students, and the Concord chapter of the Lions Club took care of an equal number.

I would like to take this opportunity to thank all of you who helped in making the school health service so successful.

Respectfully submitted,

DOROTHY Y. WELLS, R.N.

School Nurse

**REPORT

School Nurse-Teacher ..... Mrs. Dorothy Wells, R.N.  
 Handwriting ..... Rinehart Service  
 Special Class ..... Mrs. Toni Shaheen  
 Custodian ..... Mr. William Lynbourg

Strafford tuition pupils attending public schools outside the school district are as follows:

<b>School</b>	<b>Grade</b>				<b>Total</b>	<b>Tuition Rate</b>
	<b>9</b>	<b>10</b>	<b>11</b>	<b>12</b>		
Rochester	9	7	7	4	27	\$437.00

Dover	1	2	2		5	520.00

Pittsfield				1	1	557.00
Totals	16	16	10	8	50	

In these times of teacher shortages — Strafford enjoyed a minimum change in its teaching staff. Mrs. Solveig Perretton replaced Mrs. Mary Rigor de Eva in grade 2, Miss Carol A. Fortin replaced Miss Eva Karandanis and assigned to grade 7 and 8. Mrs. Irene Scribner was reassigned to grade 4.

In December, Miss Toni Mormando was added to the staff as a special education teacher. This project is funded by federal monies and PL 89-10, Title I.

Again this year, your school board is asking for much needed classroom space. Articles in the school district annual warrant for additional space should be given your due consideration.

The last 5 years have shown an emergence of a new militancy on the part of school teachers in the United States. Our daily newspapers feature front page headlines reporting teacher strikes on sanctions across the nation.

Direct negotiations in education with school boards is becoming more and more popular in New Hampshire. By collective negotiation is meant a process whereby the teachers choose an organization to represent them. This organization meets together with the school board. The two together and jointly set and determine the salaries and working conditions of the teachers in that school district. This is a bilateral decision making process as opposed to a unilateral decision making process. The agreements that are reached in negotiations are put in a form of a written document signed by both parties. The New Hampshire Association of School Administrators has adopted a legal form to be used in New Hampshire.

The reason for the above description of collective negotiation is to make the general public aware of what they may face in the future, for example that as of this writing, some of the immediate goals of the NHEA are as follows: a base starting salary of \$5,600, improved working conditions, increased sick leave, partial payment of group, life and health insurance, a signed professional negotiations agreement, etc.

In closing we would like to express our appreciation for the cooperation from the School Board, teachers, children, and citizens of the community given to this office in the past year. We will need your continued cooperation for the best interest of the boys and girls in your schools.

Respectfully submitted,

RAMON MARTINEAU,  
Superintendent

CHARLES H. MORGAN,  
Business Administrator
